

December 09, 2025: On Fight or Flight in Self-Defense

I am documenting that a group of criminals from inside of the government are using an 'elusive' force of people that are spying on my life to disturb me, to agitate me, to 'suck' the potential of growth from my time, and to 'oppress' the life that I am able to grow and live despite any amount of effort that I place into my existence.

I have already attempted to flee from the force by moving to Spain and this team followed me - literally coming to my front door in Spain.

I have a right to self-defense now.

Even after exercising any 'duty' to retreat, **I have a right by God's law to defend my own self-existence.**

Donald Trump, President of the United States of America. It's time for you to remove your 'construction workers' from outside of my house. It's time for you to stop following me around. It's time for you to stop making sound noise reactions to everything that I am doing around my home.

Donald Trump, you are stirring a civil war in America. You are absolutely forcing a war upon my home to self-exist and to earn a living. Donald Trump: **YOU ARE ATTEMPTING TO TAKE AWAY MY GOD-GIVEN RIGHTS.**

Show your face at my front door. Your clown face, Donald. Show it. I dare you. You won't.

You will continue to hide in your bubble of 'protection' while forcefully harming others inside of their own homes.

You are a lousy excuse for a President and a terrible human being.
